Proofreader Editor: *Batanova T.V.*

The actual problems of the financial market of Ukraine in the current macroeconomic situation are analyzed and the main ways of their overcoming are determined in the collection. The directions and priorities of financial market reforming in the context of anticrisis regulation and globalization processes are specified.

The modern situation of mortgage lending in Ukraine is considered and analyzed. The structure of bank mortgage lending is investigated, and the influence on it of the factors connected with the consequences of economic crisis is defined. The problems which hamper the intensive development of mortgage lending in Ukraine are identified.

The structure of energy consumption in Ukraine and abroad is investigated. The measures to enhance companies energy security according to the main directions to increase energy efficiency and use of alternative (renewable) energy sources are proposed.

The collection contains the articles of our colleagues-economists from various scientific and educational institutions of Ukraine.

The author's views concerning certain provisions of the articles may not necessarily reflect the views of the editorial board.
